

The clinical requirements for Preventive Dentistry
Department of Pedodontics & Preventive Dentistry / College of
Dentistry/ University of Baghdad
(2011 – 2012)
Fifth Year

Two full mouth treatment cases of children aged between 6-13 years with two or more unfinished cases. The child has at least 3 DT/dt.

The clinical works include:

| Type of work | Requirements No. | Minimum Requirement No. |
|------------------------|------------------|-------------------------|
| Score | 8 | 3 |
| Nutritional assessment | 6 | 2 |
| Behavior & knowledge | 6 | 2 |
| Prophylaxis & Fluoride | 5 | 1 |
| Extraction | 10 | 2 |
| Cl I filling | 7 | 3 |
| Cl II filling | 7 | 1 |
| Fissure sealant | 10 | 2 |

Important Note:

- The minimum requirements means the requirements that enable the students **just enter the final examination** & the degree will be 1/4 of the clinical work degree.
- Any other dental work will be recorded as over points.

يكون اخر موعد لتسليم متطلبات الفصل الدراسي الاول هو يوم الخميس 2011/12/29

يكون اخر موعد لتسليم متطلبات الفصل الدراسي هو يوم الخميس 2012/3/29
